

eCommerce Dimnet E-Business Solutions provides your customers with multiple payment options to ensure accessibility to a vast range of clients. Whether they prefer to pay through your personal payment form on your website or with the help of a payment key generated by you, they can make their payments at a timely and secure manner. By creating a payment system where monetary interactions are exclusive to secure servers using 128 Bit SSL technologies, customers can feel confidence in their online transactions. With your website able to be hosted on any server without compromising the security of your customers' data, exposure, efficacy and trust will be developed through this system.

Created by search engine optimisation experts, a full featured Search Engine Friendly shopping cart system and online store builder provides all the features offered by popular and successful e-commerce shopping carts but with even more innovative Search-Engine-Friendly features.
